

A Lower Cost and Effective Alternative to New Packaging

National Container Group offers collection and cleaning services for users of plastic intermediate bulk containers and drums, as well as supplying a complete range of reconditioned plastic packaging.

- We work with customers in the chemical, oil, food and pharmaceutical industries.
- We can handle packaging from all manufacturers. This means that whether you need containers removing from your site or need a supply of competitively priced reconditioned packaging, we're able to help.
- We can both collect your dirty containers and supply you with clean ones in a single trip, we can make the whole process more efficient for you.

Our Services

- Container Collection from anywhere in the UK
- Fleet Management
- Contract Cleaning & Testing
- 3rd Party Management (of the entire return logistics cycle)
- Centralised Database and Reporting
- Destruction/Disposal of Non-Reusable IBCs and Plastic Drums

Benefits

- Because we collect and clean packaging from chemical manufacturers, we're able to offer a wide range for re-sale. This includes plastic drums and intermediate bulk containers (IBCs) in varying specifications and sizes.
- All of the packaging we offer has been cleaned and tested.
- If a bottle needs to be renewed then we source our replacements from the very best global manufacturer.
- We have stock that meets your pricing and performance requirements.
- Our IBCs are available either UN or non-UN approved, entirely leak tested with or without a dry finish.
- We combine economic advantages and green initiatives together to provide an integrated and environmentally responsible service.
